

Launch Partnership

Building the Foundation for Innovation

A year long school partnership.

The Purpose

Many schools purchase innovative technology with the best intentions. Unfortunately, equipment alone does not create innovation. Without proper training, curriculum connections, implementation planning, and ongoing support, even the most powerful tools can remain underutilized. The Launch Partnership is designed to help schools establish a strong foundation for educational innovation by providing professional learning, implementation support, and coaching throughout the school year. This partnership equips educators with the knowledge, confidence, and resources needed to successfully integrate 3D printing, STEM, design thinking, and future-ready learning into classroom instruction.

Is the Launch Partnership Right for Your School?

- ✓ Are new to 3D printing or STEM integration
- ✓ Recently purchased printers or technology equipment
- ✓ Are launching an innovation initiative
- ✓ Need foundational professional learning
- ✓ Want a structured implementation plan
- ✓ Are building staff confidence and capacity
- ✓ Are seeking affordable year-long support

What's Included

Ignite Lab

Launch & Learn

Design & Align

Quarterly Coaching

Resource Library Access

Schools participating in the Launch Partnership can expect:

- ✓ **Increased educator confidence**
- ✓ **Standards-aligned classroom projects**
- ✓ **Improved student engagement**
- ✓ **Strong implementation foundations**
- ✓ **Sustainable classroom workflows**
- ✓ **Teacher readiness for advanced training**

Why Schools Choose the Launch Partnership

Many schools purchase technology before developing a plan for implementation. Far fewer provide the ongoing support educators need to successfully integrate innovation into daily instruction. The Launch Partnership helps schools move from excitement to action by providing professional learning, coaching, and implementation support throughout the year.

Schools choose the Launch Partnership because they receive:

- ✓ **Foundational professional learning**
- ✓ **Curriculum integration support**
- ✓ **Ongoing coaching and guidance**
- ✓ **Ready-to-use instructional resources**
- ✓ **A structured implementation road map**
