

Transformation Partnership

Creating a Sustainable Culture of Innovation

A multi-year strategic partnership designed to transform teaching, learning, and leadership.

The Purpose

Many schools successfully launch innovative programs. Far fewer create systems that sustain innovation long after the initial excitement fades. True transformation requires more than technology, training, or individual champions. It requires a shared vision, strong leadership, strategic planning, ongoing professional learning, community engagement, and systems that support continuous growth. The Transformation Partnership is 3DEDU's premier school and district partnership designed to help organizations build a culture where innovation becomes embedded in teaching, learning, leadership, and student success. This partnership combines professional learning, coaching, certification pathways, leadership development, strategic planning, and implementation support into a comprehensive framework for long-term change.

Is the Transformation Partnership Right for Your School?

- ✓ **Are committed to long-term innovation and continuous improvement**
- ✓ **Want to develop innovation leaders throughout the organization**
- ✓ **Seek district-wide or multi-building implementation**
- ✓ **Want measurable impact on teaching and learning**
- ✓ **Need strategic planning and implementation support**
- ✓ **Are interested in educator certification pathways**
- ✓ **Want to build sustainable systems that endure beyond a single initiative**
- ✓ **Are preparing students for future-ready careers and opportunities**

Certification Pathways

Schools participating in the Momentum Partnership can expect:

- ✓ **Certified innovation leaders**
- ✓ **Sustainable implementation systems**
- ✓ **Increased educator capacity**
- ✓ **Enhanced student engagement and ownership**
- ✓ **Strong community and industry partnerships**
- ✓ **Long-term strategic planning and growth**
- ✓ **Measurable impact on teaching and learning**
- ✓ **A culture that embraces creativity, innovation, and continuous improvement**

Why Schools Choose the Transformation Partnership

Many schools invest in technology, professional development, and innovation initiatives independently. Far fewer have a comprehensive strategy that connects leadership, professional learning, classroom implementation, coaching, community engagement, and long-term sustainability. The Transformation Partnership provides a structured pathway for creating meaningful, lasting change that impacts every level of the organization.

Schools choose the Transformation Partnership because they receive:

- ✓ **Comprehensive professional learning and coaching**

- ✓ **Innovation leadership development**
- ✓ **Educator certification pathways**
- ✓ **Strategic planning and implementation support**
- ✓ **Sustainable systems for long-term success**
